**Description**

In the gtkui, pressing either the "Del" key or using the playlist context-menu "Cut" to delete/cut a track from the playlist fails since 3.2-beta1. Last version it worked in is 3.2-alpha1.

The Winamp gui is not affected.

### History

Done some debugging...

**#2 - March 27, 2012 04:07 - John Lindgren**

I am unable to reproduce.  Also, will you explain the reasoning behind your patch?

**#3 - March 27, 2012 10:40 - Michael Schwendt**

Without the renaming, I experience symbol collision between audacious-plugins /src/gtkui/ui_gtk.c and /src/audacious/playlist-new.c:

#0  playlist_delete_selected (playlist_num=8630720) at playlist-new.c:1425
#1  0x00007fffed242215 in playlist_keypress_cb (widget=<optimized out>,
event=<optimized out>, unused=<optimized out>) at ui_gtk.c:581

Reproducible on the older Fedora 16 (x86_64).

playlist_delete_selected(), in Audacious core, is not supposed to be visible to plugins.  Fixed in master (and will be backported to 3.2.2):
