Description

It seems the PSF plugin is a bit overzealous when it comes to silence skipping. When I play a song, all silences are skipped no matter if they are in the middle the song. That totally breaks the rythm, especially in drum parts.

To fix this, I simply reverted the commit introducing silence skipping (git commit daf401b4ecedc81b9d42dcca09f52f0e3e3ec81), thus removing that feature totally.

If you need to test, use the song "Turks' theme" from this rip: http://www.caitsith2.com/psf/psf1/ff7_psf.rar
