

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Feature #213

Crossfade plugin doesn't work on manual song change

November 16, 2012 12:20 - Vasily Merzlyakov

Status:	Closed	Start date:	November 16, 2012
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:	plugins/crossfade	Estimated time:	0.00 hour
Target version:	3.6		
Affects version:	3.3.2		
Description			
Crossfade works OK on automatic song change but on manual song change it skips crossfading as if crossfade plugin is off.			

History

#1 - November 18, 2012 20:35 - John Lindgren

- Tracker changed from Bug to Feature

This is intended behavior. Converting to a feature request.

#2 - November 20, 2012 10:15 - Vasily Merzlyakov

This is intended behavior.

Oh, that's weird, I was sure it was a bug. What about a second parameter for manual song change then (with 0 means no crossfading)?

#3 - November 22, 2012 17:21 - John Lindgren

The problem is that right now a manual song change causes a full reset of the output stream, and there's currently no way for the crossfade plugin to prevent it. So while I agree that this would be a nice feature to have, it'll take some thought about how best to implement it.

#4 - November 22, 2012 18:33 - Artem S. Tashkinov

Please, make it an option if you're going to implement it.

If I manually jump between tracks I don't want any fade-in/fade-out.

#5 - November 23, 2012 15:42 - Vasily Merzlyakov

Artem, yes, I was talking about an option, just like in many other players: separate numbers for automatic and manual song change.

John, OK, I hope you'll find a solution.

#6 - December 13, 2013 09:11 - Valombre Delanhuyi

Hi,

as i organise my newyear party i'll use my linux box with audacious and i am big fan of crossfade plugin.

I'll check for this feature because it's a must have when you manage different playlists, changing manually from a playlist to another kill the crossfade same as changing song manually.

Activate this option with checkbox would be great for parties !

Thanks for your attention on this one.

PS : 10 seconds crossfade max is just enough but more (20) would be great .. need another wishlist ?

#7 - October 05, 2014 04:24 - John Lindgren

- *Status changed from New to Closed*

- *Target version set to 3.6*

- *% Done changed from 0 to 100*

I've implemented the following changes for 3.6:

- Added an option to crossfade on seek or manual song change, with a separate overlap setting.
- Increased the maximum overlap for automatic song change to 15 seconds.
- Added a new silence removal plugin which is useful for crossfading, but can also be used on its own.
