

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #332

metadata updating failed and other weird tag issues

August 07, 2013 00:22 - il lumilore

Status:	Closed	Start date:	August 07, 2013
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	3.4.1		
Affects version:	3.4		

Description

When I load up certain ogg songs, audacious fails to read the tag data(track details). If I attempt to edit the tag data, it says metadata updating failed when save is clicked.

If I load the same song up in amarok, it does read tag data. If I edit the tags in mp3tag, it changes nothing in either amarok or audacious, so there maybe something weird with the file itself, but I have observed this behaviour over multiple files.

using 3.4, in kubuntu 13.04 x64

History

#1 - August 08, 2013 02:04 - John Lindgren

- Status changed from New to Closed
- Target version set to 3.4.1
- % Done changed from 0 to 100
- Affects version 3.4 added
- Affects version deleted (3.4.1)

Fixed:

<https://github.com/audacious-media-player/audacious/commit/582fb854c458628bc184beefe873e686ea742de3>

P. S. This bug can't possibly affect version 3.4.1 because the latest version is still 3.4.

#2 - October 19, 2013 05:38 - il lumilore

I am getting this bug in 3.4.1. My test song is 10MB so I can't upload it here, but I kept getting metadata updating failed error when using audacious to try to change the tags, then I stripped the cover art, and suddenly audacious was able to change the metadata successfully. Audacious was also not able to see the cover art, if that matters.
