Scrobbling fails when track number is not set

December 11, 2013 20:51 - Sylwester B

Status:	Closed	Start date:	December 11, 2013
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:	plugins/scrobbler2	Estimated time:	0.00 hour
Target version:	3.5		
Affects version:	3.4.3		

Description

If any song don't have set id in album scrobbler send to last.fm irrcorect value trackNumber (set as -1) this situation make error :

```
main.c:532 [main]: Startup complete.
scrobbler_xml_parsing.c:11 [prepare_data]: Data received from last.fm:
<?xml version="1.0" encoding="utf-8"?>
<lfm status="failed">
<error code="6">
trackNumber must be a non negative integer
</error>
</lfm>
```

I couldn't reproduce this. Do you confirm you are using the 3.5 (development) version?
Can you please show the output of a program like mp3info over the file in question?

```
mp3info track.mp3
```

Thanks.

#2 - December 23, 2013 01:46 - Sylwester B

```
mp3info make information :
```

does not have an ID3 1.x tag.

#3 - December 23, 2013 01:56 - Sylwester B

This output is bad because all my files have tags (incomplete but write standard data e.g track name, artist and album name) and Tracklist manager detect this tags when I refreshing or add new file
