Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #452

No action on title change (e.g. on network streams) if songchange plugin is activated and configured to do some action

July 05, 2014 00:07 - Anonymous

Status:	Closed		**Start date:**	July 04, 2014
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	100%
Category:	plugins/song change		**Estimated time:**	1.00 hour
Target version:	3.5.1			
Affects version:	3.2.4, 3.5			

Description

If the song change plugin is activated and configured to execute some command
("Command to run when title changes for a song (i.e. network streams titles")
such a title change does not have any effect.

Example:
The attached image shows a configuration dialog, filled with the values,
I have tried until I discovered this issue.
The command '/usr/bin/inotify-send "test"' will be executed if a different song
has been chosen by the user. However the command "echo "%a;%b;%T" > /tmp/playedsongs.csv"
will not be executed if the title for a song changes.

It has been testet with audacious version 3.2.4, but a look into the developer sources revealed,
that the current version is affected too.

History

#1 - July 12, 2014 20:35 - John Lindgren

- Status changed from New to Closed

- Target version changed from 3.6 to 3.5.1

- % Done changed from 0 to 100

- Affects version 3.2.4, 3.5 added

- Affects version deleted (3.4.2)

Fixed in master and for 3.5.1.
