#### Description

Winamp/XMMS skins that do not have eq\_ex.bmp are not loaded by Audacious. Instead, Audacious continues to use the previously selected skin.

Some skins to test:

<http://archive.customize.org/files/old/winamp2/files/Next30001-0.zip>

<ftp://mirror.ancl.hawaii.edu/pub/FreeBSD/ports/distfiles/bmXmms.zip>

Adding eq\_ex.bmp fixes the issue but you cannot do that with hundreds of skins. And it is not an options for the average user, either.

Skins without eq\_ex.bmp should be loaded, too.

Tested in Audacious 3.4.3 and 3.6.2.
