Audtool option to toggle the new record/dub mode

November 21, 2015 18:54 - Jim Turner

Status:	Closed	Start date:	November 21, 2015
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:	audtool	Estimated time:	0.00 hour
Target version:	3.8		
Affects version:	3.7		

Description

Please add Audtool control of new "Record audio stream using Filewriter Plugin" via new option (--playback-record) that would permit users to add a desktop launcher icon/button to more quickly start and stop recording of live streams, etc (I use wmapp). In addition it would also permit users to create a cron-job / act script, etc. to record streaming programs at a specific time.

I've included a patch to do just that that seems to work great for me!

Jim

Looks good. Any chance you could convert this to a "git diff" patch?

#3 - December 10, 2015 07:17 - Jim Turner

I've no idea what a "git diff patch" is, much less how to do one, but I'll go see if I can figure out how!

#4 - December 10, 2015 15:26 - John Lindgren

It's extremely simple to do. Just make your changes on top of a clean Git repository, then run "git diff".

#5 - December 11, 2015 04:15 - Jim Turner

- File *feature594_patch.git_diff.txt* added

Done, see attached.

#6 - December 11, 2015 06:03 - John Lindgren

Thanks! I expanded on the patch to add a "playback-recording" command as well, and updated the manual page for audtool.

P.S. You missed aud-dbus.xml in the patch, so it didn't quite compile. Maybe I should have said, "make your changes on top of a clean Git repository, make sure it compiles, and *then* run 'git diff'". :)

#7 - December 11, 2015 06:04 - John Lindgren

- Status changed from New to Closed

- Target version set to 3.8

- % Done changed from 0 to 100
