Target version:			
Affects version:			

Description

I request an option to ensure that playback is shuffled when I launch from the command line.

Either:
-S, --shuffle
Sets shuffle=TRUE
(I suppose this one begs for --noshuffle or something as well)

or:
-R, --randomize
Presorts playlist in random order

would be awesome.
Thanks!

History

#1 - February 03, 2016 14:33 - Michael Schwendt

audtool can do that already, and if you want to enforce shuffling, this would work:

audtool playlist-shuffle-status|grep "on" || audtool playlist-shuffle-toggle

#2 - July 10, 2016 06:30 - John Lindgren

- Status changed from New to Rejected

As Mr. Schwendt stated, this feature exists already. Closing.
