Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Feature #657

Add "View" menu to the Qt interface

August 06, 2016 20:46 - Ludovico Ferdinando

Status:	Closed		**Start date:**	August 06, 2016
Priority:	Major		**Due date:**	
Assignee:			**% Done:**	100%
Category:	plugins/qtui		**Estimated time:**	0.00 hour
Target version:	3.9			
Affects version:	3.8			

Description

The "View" menu isn't available on the Qt interface, so I can't disable the bottom bar. Disabling it on the GTK interface doesn't remove it from the Qt interface.

KDE Plasma 5.7.3
Qt 5.7.0
Audacious 3.8 beta 1

History

#1 - August 06, 2016 20:48 - John Lindgren

- Tracker changed from Bug to Feature

- Subject changed from No "View" menu on the Qt interface to Add "View" menu to the Qt interface

- Assignee deleted (John Lindgren)

#2 - January 02, 2017 22:13 - Thomas Lange
