Target version: 3.10	
Affects version:	
Description	
Hello,	
In the config file, Audacious keeps streams URL in a [history] section. That happens each time you do "File" > "Open URL" or "Add URL". It would be nice to be able to disable it.	

History

#1 - September 20, 2017 02:46 - John Lindgren

- Target version set to 3.10

- % Done changed from 0 to 100
