

Audacious - Bug #960

Status icon volume change with scroll doesn't work under Plasma-desktop

April 09, 2020 20:18 - Marcin Kocur

Status:	Rejected	Start date:	April 09, 2020
Priority:	Minor	Due date:	
Assignee:		% Done:	0%
Category:	plugins/statusicon	Estimated time:	0.00 hour
Target version:			
Affects version:	4.0.1		

Description

Status icon doesn't react on scrolling with mouse over it (this action should change volume) under Plasma-desktop on both old winamp style interface and Qt. It works just fine on Xfce panel. Using Archlinux packages:

<https://git.archlinux.org/svntogit/packages.git/tree/trunk/PKGBUILD?h=packages/audacious>

<https://git.archlinux.org/svntogit/packages.git/tree/trunk/PKGBUILD?h=packages/audacious-plugins>

History

#1 - April 09, 2020 21:09 - John Lindgren

If it works under XFCE but not KDE, then why don't you report the bug to KDE?

#2 - April 09, 2020 21:12 - John Lindgren

- Status changed from New to Rejected

Actually this should be reported to Qt, they have not implemented the Scroll command in their SNI implementation:

```
void QStatusNotifierItemAdaptor::Scroll(int w, const QString &s)
{
    qDebug(qLcTray) << w << s;
    // unsupported
}
```
