Audacious 4.0.5 (isn't listed among "affects version" choices)

Using Panda Jim's deb repo on kubuntu 20.04

**History**

#### #1 - September 14, 2020 03:05 - John Lindgren
This is actually intentional, since those columns are usually too narrow to show the headers.

#### #2 - October 23, 2020 23:50 - John Lindgren
- Status changed from New to Rejected

#### #3 - December 21, 2020 20:30 - Thomas Lange
- Target version set to 4.1
- Status changed from Rejected to Closed
- Category set to plugins/qtui

4.1 now uses abbreviated headers for these columns.
