

Audacious - Support #1034

Radio freezes after network shutdown or suspend mode

November 23, 2020 07:05 - grayich grayich

Status: New	Start date: November 23, 2020
Priority: Minor	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Affects version: 4.0.4	

Description

Radio freezes after network shutdown or suspend mode

audacious qt v4.0.5

sequencing:

1. play radio station, eg <https://lk.castnow.ru:8100/edm-320.mp3>
2. **sudo ip link set dev enp2s0 down** or **systemctl suspend**
3. wait 7+ minutes
4. **sudo ip link set dev enp2s0 up** or **power up**

After that, the music does not play, even if you select another.
If you close the player, then the process still remains:

```
USER      PID %CPU %MEM    VSZ   RSS TTY      STAT START   TIME COMMAND
gray      25886  0.6  1.7 1124140 69140 ?        S1    08:29   0:12 audacious
```

p.s.
does not always freeze, sometimes it takes more attempts

History
