| Description | | | |
| It would be great if after selecting a few tracks in a playlist, Audacious would show the stats in the status bar, e.g. | | | |
| Selected: N tracks, 12:34 duration | | | |
| There's plenty of space for that. | | | |
| Thank you! | | | |

The status bar does show the duration (total) of the selected tracks already.
