503 is a server error -- probably not a bug on our side.

#2 - July 26, 2021 22:31 - Device Null

Thanks for that. Does this mean we need to let lyrics.ovh know they have a problem?

#3 - August 13, 2021 15:28 - Thomas Lange

<https://lyrics.ovh/> still returns "503 - Service Unavailable". :(

@Device Null: The disruption should be obvious for the lyrics.ovh team, but if you find contact information, feel free to notify them.
