Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #1137

mkv files are ignored when opening a folder with mkv files

November 12, 2021 08:52 - Nil Geisweiller

Status:	Closed		**Start date:**	November 12, 2021
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	100%
Category:	plugins/ffaudio		**Estimated time:**	0.00 hour
Target version:	4.2			
Affects version:	4.1			

Description

   1. Problem

Audacious ignored mkv files when launched with a folder in argument that contains mkv files.

   1. How to reproduce

1. Create a folder
2. Place an mkv file in it
3. Run `audacious myfolder`

audacious displays the error "No files found".

From the log (obtained with -V) one can see that the file is attempted to be added to the playlist, but seemingly fails

```
INFO adder.cc:142 [add_file]: Adding file: file://XXX/myfolder/myfile.mkv
```

Sorry for the badly formatted report. Here's a better formatted one.

Problem

Audacious ignored mkv files when launched with a folder in argument that contains mkv files.

How to reproduce

1. Create a folder called myfolder
2. Place an mkv file in it
3. Run: audacious myfolder

audacious displays the error "No files found".

From the log (obtained with -V) one can see that the file is attempted to be added to the playlist, but seemingly fails

```
INFO adder.cc:142 [add_file]: Adding file: file://XXX/myfolder/myfile.mkv
```

Needless to say that when given the actual mkv file in argument, as opposed to giving the folder containing that mkv file, audacious perfectly opens and play that file. Indicating that the problem comes from folder opening, not mkv format support.
