Audacious - Support #1158

start Audacious on pipewire backend needs double-check

February 26, 2022 18:07 - Alex .

Status: Closed Start date: February 26, 2022 **Priority:** Minor Due date: % Done: Assignee: 0% Category: plugins/jack **Estimated time:** 0.00 hour Target version: Affects version: 4.1

Description

I would like to start Audacious automatically with my desktop session. So I added an .desktop entry inside my .config/autostart/folder.

The problem is on each start-up Audacious reports an error message saying "No JACK output ports were found. Please check settings." So I have to close the error pop-up and hit play. That starts the playback just one second after the error message.

I am not using PipeWire at this point so I am unable to provide any suggestions, sorry.

Closing.

I get the same error message for other applications e.g. Hydrogen Drum Machine as well, makes it a bug on Pipewire side, not on the applications.
