<b>Target version:</b>			
<b>Affects version:</b>	3.3.1		

#### Description

...but in previous version 3.2.4 it works perfect. I just added winamp skin as attachment and you can try it. It seems to be perfect with that skin almost like winamp, but now I can't change skin in current version 3.3.1 to this one. Others skin which are included in package work perfect.

Thanks for your help and fixing.

This one works fine:

<http://gnome-look.org/content/show.php/Winamp+Classic+skin+for+Audacious?content=135799>

##### #2 - August 14, 2012 02:56 - John Lindgren

- Status changed from New to Closed

- Target version deleted (3.3.2)

- % Done changed from 0 to 100

I've uploaded a new .zip file (3.3.1a) that includes a loader for .bmp files. The skin should load correctly now.
