Target version:				
Affects version:	3.3.4			

Description

Using Ubuntu 12.10
Audacious: 3.3.4 (compiled from source)

Playlist displayed very bad when using oxygen-gtk. This seems to be a bug in oxygen-gtk, but audacious only one program that have it.
Steps to reproduce:
1) close audacious
2) set oxygen-gtk theme
3) run audacious
Playlist looks like mess.

Could You please "fix" this?
