Target version:				
Affects version:				

Description

better drag and drop folders support

- adding a folder near plus (create new tab button) or between tabs (show rectangle around the rest of the tabs when is in the right place),
create a new tab, using the name of the folder
- tab scroll using mouse wheel

sorry for my bad english :)
im using xfce

thanks!
hernán

History

#1 - March 23, 2013 14:54 - John Lindgren

- Tracker changed from Bug to Feature

- Subject changed from improve tabs usability to Create playlist by dragging folder to tab bar

- Target version deleted (3.4)

#2 - May 02, 2013 01:24 - hernan fiorentino

tabs usability
- create playlist by dragging folder to tab bar + (just load cue if a working one exist or all files in the folder)
- use mouse wheel for scrolling between tabs (fluid tab cycling)

#3 - October 06, 2013 01:35 - John Lindgren

- Category set to plugins/gtkui
