Audacious - Bug #285

"Now playing" is only sent when tracks starts to play

April 28, 2013 14:13 - Luís Picciochi

Status:	Rejected		**Start date:**	April 28, 2013
Priority:	Minor		**Due date:**	
Assignee:	Luís Picciochi		**% Done:**	0%
Category:	plugins/scrobbler2		**Estimated time:**	0.00 hour
Target version:				
Affects version:	3.4			

Description

1. Play track: now playing is sent
2. Pause track: now playing stays at the site for the length of the song
3. Stay paused for, say, one hour.
4. Resume track: now playing is **not** re-sent

Also, when starting Audacious in "paused mode", no "now playing" is sent.

Fix: we can send "now playing"s on resume with the track length that's remaining to be played.

History
