Description

It only occurs for some m4a files (but more than one of them I had). The others I had worked fine. Upon opening the m4a file, Audacious shows the file open dialog and hangs.

$ audacious -v
Audacious 3.4-beta1 (05/29/2013)

I captureed log as below and attached the beginning part of the log file.

$ audacious -V 01\ This\ One\'s\ For\ The\ Ladies.m4a > ~/audacious_and_an_m4a.log&
