Audacious - Bug #347
incorrect playtime length
September 25, 2013 16:17 - Bianchi Fan

Status: Closed
Priority: Minor
Assignee:
Category: core
Target version: 3.4.2
Affects version: 3.4.1

Description
With more than one track in playlist the length of (last?) track may be false.
It happens very often when playing tracks from a cue list.
Sometimes even the title is wrong.

Version:
DreamStudio Ubuntu (12.4 LTS) & Audacious 3.4.1

History

Argh. I know what the problem is here. Still thinking about the best way to fix it for 3.4.x. It shouldn't affect Git master.

#2 - September 26, 2013 23:34 - John Lindgren
- Category changed from plugins/cue to core
- Status changed from New to Closed
- Assignee deleted (Bianchi Fan)
- Target version set to 3.4.2
- % Done changed from 0 to 100
