

## Audacious - Bug #386

### Some menu items are not translatable anymore

<b>Target version:</b>	3.5		
<b>Affects version:</b>	3.5		
<b>Description</b>			
With the new libaudgui menu code, some items are no more shown translated.			
Affected menu items:			
- [1] gtkui/menus.c: <b>All except</b> main_items[], rclick_items[], tab_items[]			
- [2] skins/menus.c: <b>Only</b> dupe_items[], sort_items[], sort_selected_items[]			
So for the Winamp interface only submenus are shown in English.			
But with the GTK+ interface, it is much worse.			
Only the main items (Open, Playback, Playlist ...) are shown correctly here.			
Of course I have updated the po file properly with 'make update-po' and update-potfiles.sh.
