

Audacious - Bug #386

Some menu items are not translatable anymore

January 05, 2014 21:25 - Thomas Lange

Status:	Closed	Start date:	January 05, 2014
Priority:	Blocker	Due date:	
Assignee:		% Done:	100%
Category:	libaudgui	Estimated time:	0.00 hour
Target version:	3.5		
Affects version:	3.5		

Description

With the new libaudgui menu code, some items are no more shown translated.

Affected menu items:

- [1] gtkui/menus.c: **All except** main_items[], rclick_items[], tab_items[]
- [2] skins/menus.c: **Only** dupe_items[], sort_items[], sort_selected_items[]

So for the Winamp interface only submenus are shown in English.

But with the GTK+ interface, it is much worse.

Only the main items (Open, Playback, Playlist ...) are shown correctly here.

Of course I have updated the po file properly with 'make update-po' and update-potfiles.sh.
