

Audacious - Bug #390

skins: Seeking does not always stop if button is released

January 08, 2014 21:43 - Thomas Lange

Status:	Closed	Start date:	January 08, 2014
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:	plugins/skins	Estimated time:	0.00 hour
Target version:			
Affects version:	3.4.3		
Description			
If the forward/backward button in the main window is not released on its own position, seeking never stops.			
The only solution in this case is to stop the playback and restart it again.			
How to reproduce:			
1. Click on the forward/backward button in the main window for a while.			
2. Move the mouse cursor away.			
3. Release the button.			

History

#1 - January 09, 2014 04:19 - John Lindgren

- Status changed from New to Closed
- Target version set to 52
- % Done changed from 0 to 100
- Affects version 3.4.3 added

Fixed.

I'm surprised no one noticed this until now. It was probably a regression caused by this 2011 commit:
