

## Audacious - Bug #397

### skins: Shuffle button has wrong size

February 01, 2014 16:12 - Thomas Lange

<b>Status:</b>	Closed	<b>Start date:</b>	February 01, 2014
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	100%

<b>Target version:</b>	3.5		
<b>Affects version:</b>	3.4.3		

#### Description

The clickable area for the shuffle button (RAND) is too big.  
It toggles if you click the area between this and the eject button.

The attached patch does not fix it completely.  
It corrects the size of the button but  
I don't know why `window_put_widget()` is not changing its position.

#### History

##### #1 - February 04, 2014 00:02 - John Lindgren

- Status changed from New to Rejected

It would be best to fix the skin rather than change the code. If you look at a screenshot of Winamp 2 (e.g. here [1]), you will see that the shuffle button is supposed to nearly touch the eject button.

##### #2 - February 04, 2014 06:34 - John Lindgren

- Status changed from Rejected to New

Didn't mean to reject, oops.

##### #3 - February 08, 2014 14:45 - John Lindgren

- Status changed from New to Closed

- Target version set to 3.5

- % Done changed from 0 to 100

- Affects version 3.4.3 added
