Audacious - Bug #4

cover images are not displayed anymore

December 20, 2011 14:58 - Götz Waschk

Status:	Rejected		**Start date:**	December 20, 2011
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	0%
Category:	plugins/albumart		**Estimated time:**	0.00 hour
Target version:	3.1.2			
Affects version:	3.1.1			

Description

This is on Mandriva 2011 x86_64 with audacious 3.1.1 and audacious-plugins 3.1.1. Previous versions of audacious did display the cover images, now the albumart plugin only opens an empty window. But the cover image is displayed in the notification.

The only message on start of audacious is this:
(audacious:31835): GLib-GObject-WARNING **: gsignal.c:2275: signal `draw' is invalid for instance `0x16ef410'

(audacious:31835): GLib-GObject-WARNING **: gsignal.c:2275: signal `draw' is invalid for instance `0x16ef9e0'

History

#1 - December 20, 2011 14:59 - Götz Waschk

I forgot to mention that I'm using gtk+ 2.24.5 and glib 2.28.8.

#2 - December 20, 2011 17:20 - John Lindgren

This looks like you built Audacious core against GTK 2.x but built the plugins against GTK 3.x. Did you forget to use "--disable-gtk3" when you ran ./configure?

#3 - December 20, 2011 18:02 - Götz Waschk

You are right, the plugins link to gtk 3.x and the main program to gtk 2.x. It would be nice if configure could prevent this.

#4 - December 20, 2011 20:42 - John Lindgren

- Status changed from New to Rejected

We need to provide better instructions for building Audacious to prevent mistakes like this. When I have the time I will write some.
