

Audacious - Feature #434

AOSD: option to show on all screens

April 17, 2014 04:10 - Alister Hood

Target version:			
Affects version:	3.4.3		
Description The option to "Display OSD using all monitors" sounds like it could mean the OSD will be displayed on every monitor, rather than that the location will be based on the layout of all the monitors. But this would actually be a nice feature.

aosd will not be seeing further development since it is GTK+ and X11 specific.
