

Audacious - Bug #448

winamp skin drag & drop

June 01, 2014 03:39 - szymon krasuski

Status:	Closed	Start date:	June 01, 2014
Priority:	Minor	Due date:

Target version:			
Affects version:			
Description in kde 4.13 (manjaro linux) when using winamp skin can't successfully drag & drop folder with music onto player. it shows error: "No decoder found for file:///file%3A///run/media/kremix/data/Neverending%20White%20Lights%20%28Act%20III%20Love%20Will%20Ruin%20Part%201%29%202011%20Flac." plays fine same folder if I open it with audacious not drag & drop. tried using different file explorers to drag & drop - no joy. winamp skin support is the main reason for using gtk based audacious.			

History

#1 - June 01, 2014 04:05 - John Lindgren

- Target version deleted (3.6)
- Affects version deleted (3.6)

There is no Audacious 3.6 yet.

#2 - June 01, 2014 04:15 - John Lindgren

- Category set to libaudgui
- Status changed from New to Closed
- % Done changed from 0 to 100

Regression in Git master. Fixed. Thanks for reporting the problem.
