Audacious - Bug #468

[Patch] Qt: Support left mouse button in time slider

October 14, 2014 16:15 - Thomas Lange

Status:	Closed		**Start date:**	October 14, 2014
Priority:	Minor		**Due date:**	
Assignee:			**% Done:**	0%
Category:	plugins/qtui		**Estimated time:**	0.00 hour
Target version:	3.6			
Affects version:	3.6			

Description

The attached patch adds the support for using
the left mouse button in the time slider.

Please review.

Looks good.

#2 - October 14, 2014 17:04 - Thomas Lange

Thanks, I will commit it if William confirms that it works on Mac OS.

#3 - October 17, 2014 21:39 - Ariadne Conill

Can you explain the problem here? Doesn't the time slider already work with left mouse button?

#4 - October 17, 2014 21:45 - Ariadne Conill

I tested the patch on Mac and it causes no regressions there, but I don't understand what the goal of the patch is, it seems to be the same behaviour as it was before on Mac, so I am not sure what you are trying to accomplish.

Please clarify the need for the patch prior to committing it, as I don't understand why we need it.

#5 - October 17, 2014 22:39 - Thomas Lange

On Linux the left mouse button has no effect on the slider.
If you want to change its position you have to use the scroll wheel.
