

## Audacious - Bug #474

### libaudqt: Clean up properly on shutdown

October 29, 2014 00:10 - Thomas Lange

<b>Status:</b>	Closed	<b>Start date:</b>	October 28, 2014
<b>Priority:</b>	Major	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	100%
<b>Category:</b>	libaudqt	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.6		
<b>Affects version:</b>	3.6		

#### Description

Audacious segfaults on shutdown if the "Song Info" dialog was opened before.

Version:  
latest from git

Steps to reproduce:

1. Start Audacious in Qt mode.
2. Open the "Song Info" dialog for a track.
3. Close dialog with "OK".
4. Close Audacious.

The segfault does not occur every time though.  
For me usually three tries are enough.

Output of *audacious -VV --qt*:

```
audacious: strpool.cc:223: static void String::raw_unref(char*): Assertion `status & MultiHash::Found' failed.  
Aborted (core dumped)
```

#### History

##### #1 - October 29, 2014 03:00 - John Lindgren

Fixed the crash:

<https://github.com/audacious-media-player/audacious/commit/024075f987ed20aa9f34c4a19100202fef9765e9>

However, the real problem is that libaudqt is not cleaning itself up properly on exit.

##### #2 - October 29, 2014 03:01 - John Lindgren

- Subject changed from Qt: Segfault on shutdown to libaudqt: Clean up properly on shutdown

- Priority changed from Critical to Major

##### #3 - November 01, 2014 15:01 - Thomas Lange

By now a segfault occurs on shutdown if the log inspector dialog was shown before.

##### #4 - November 02, 2014 19:51 - John Lindgren

- Status changed from New to Closed

- Target version set to 3.6

- % Done changed from 0 to 100

Fixed.
