Audacious - Bug #477

gtkui: Wrong selection after starting a song by mouse click

Description

Starting any song by mouse click always selects the second entry of the playlist.

It gets the focus as if it was single-clicked.

The clicked song is played though. But the list scrolls to the top which is annoying.

Burned by gboolean. libaudgui/list had been storing the row number in a gboolean from the very beginning. Then gboolean changed to bool.
