Audacious - Bug #52

Vertical list view of playlists

January 19, 2012 11:54 - acar burak

Status:	Rejected		**Start date:**	January 19, 2012

Target version:				
Affects version:				

Description

In the current horizontal tabs view of playlists, if you have more than a couple of playlists, you need to expand the app window horizontally and this creats a considerable waste of screen real estate. A vertical tabs or list view would be much more minimalist and easy to browse.

Regards.
