Audacious - Bug #522
Artifacts displayed with broken Winamp skin
March 17, 2015 23:22 - David Rosenstrauch

Status: Closed
Priority: Minor
Assignee: plugins/skins
Category: plugins/skins
Target version: 3.6.1
Affects version: 3.6

Description
Since upgrading to Audacious 3.6, several of my Winamp skins don't render correctly.

See attachments for how the skin renders in audacious (http://darose.net/Audacious_3.6_with_winamp_skin.png) vs. qmmp (http://darose.net/QMMP_0.8.3_with_winamp_skin.png). The skin in question is also attached (http://darose.net/LASERmecha_4000.wsz).

History
#1 - March 18, 2015 15:09 - Thomas Lange
The GTK3 version of Audacious renders correctly, only GTK2 is affected.

#2 - March 18, 2015 15:25 - John Lindgren
The skin is broken. The clutterbar is completely missing from titlebar.bmp.

#3 - March 18, 2015 16:16 - John Lindgren
- Subject changed from Upgrade to Audacious 3.6 broke some Winamp skin features to Artifacts displayed with broken Winamp skin
- Category set to plugins/skins
- Status changed from New to Closed
- Target version set to 3.6.1
- % Done changed from 0 to 100
