Description
Since upgrading to Audacious 3.6, several of my Winamp skins don’t render correctly.

See attachments for how the skin renders in audacious (http://darose.net/Audacious_3.6_with_winamp_skin.png) vs. qmmp (http://darose.net/QMMP_0.8.3_with_winamp_skin.png). The skin in question is also attached (http://darose.net/LASERmecha_4000.wsz).

History
#1 - March 18, 2015 15:09 - Thomas Lange
The GTK3 version of Audacious renders correctly, only GTK2 is affected.

#2 - March 18, 2015 15:25 - John Lindgren
The skin is broken. The clutterbar is completely missing from titlebar.bmp.
