

## Audacious - Feature #553

### History tab/plugin

June 19, 2015 09:36 - Artem S. Tashkinov

<b>Status:</b>	Rejected	<b>Start date:</b>	June 19, 2015
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Affects version:</b>			
<b>Description</b>			
It would be nice if Audacious kept a track/history of all played tracks in the following format:  Date started playing (Unix TS):Date stopped playing (Unix TS):Track ID (tag):Track URL			

### History

#### #1 - July 05, 2015 13:44 - Anonymous

Hi !

I did a small script to handle that, but it's a standalone script (in bash), you need to launch it along with audacious. It keeps and update in a text file the informations, and use a popup to notify when a new song plays (not when changing songs). Better than nothing.

Maybe someone could make it as plugin or make it better.

If interested in, I can post it here.

- File audacious-history added

I'm using this workaround until we have this feature implemented.

The escape() routine is badly written but it was a quick dirty hack anyways.

This script has to be saved somewhere and then you need to add it to the Song Change plugin.

#### #3 - January 03, 2019 13:13 - Artem S. Tashkinov

- File audacious-history added

Here's an updated script which I checked against

```
% & ' " ( ) + ;
```

+ various Unicode characters and everything works as expected.

#4 - December 02, 2019 20:49 - John Lindgren

- Status changed from New to Rejected

No core developer has had time/interest to work on this in 4 years. Closing.
