

## Audacious - Bug #569

### Qt translations are not included

August 20, 2015 20:05 - Thomas Lange

<b>Status:</b>	New	<b>Start date:</b>	August 20, 2015
<b>Priority:</b>	Minor	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%

<b>Target version:</b>			
<b>Affects version:</b>	3.7		

#### Description

Strings by Audacious are meanwhile all shown localized in the Qt interface.

The translations of Qt itself are not included though.

This can be noticed for example in context menus (lyricwiki-qt, scollbars) and menu items (CTRL).

In theory this should be easy to fix, but the attached patch has no influence.
