

Audacious - Bug #597

Audacious 3.7 fails to open files within a folder

November 24, 2015 13:38 - yzT yzT

Status: Rejected	Start date: November 24, 2015
Priority: Minor	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Affects version: 3.7	

Description

Previously, if you clicked to open a folder, all files in that folder were loaded, however now anything happens. "Opening" a folder will just empty the play list, but no music is added.

History

This is generally caused by an installation or configuration problem. From what source did you install Audacious? Also attach the output of "audacious -V".

#2 - November 25, 2015 05:01 - John Lindgren

- Status changed from New to Rejected

Anyway, the forums are a better place for questions like this.
