

Audacious - Bug #615

Audacious crashes on missing .wvc files for hybrid wavpack files

January 10, 2016 13:13 - Roman Pauer

Status:	Closed	Start date:	January 10, 2016
Priority:	Minor	Due date:	
Assignee:		% Done:	100%
Category:	plugins/wavpack	Estimated time:	0.00 hour
Target version:	3.7.2		
Affects version:	3.6, 3.7		

Description

Audacious crashes whenever it attempts to play hybrid Wavpack file without .wvc file.
The bug was introduced in GitHub commit [ae0cdf6a98dc7dc91d6156d07a62b0a2f3d8479d](https://github.com/audacious-media-player/audacious-plugins/commit/ae0cdf6a98dc7dc91d6156d07a62b0a2f3d8479d) (Use VFSFile member functions. - <https://github.com/audacious-media-player/audacious-plugins/commit/ae0cdf6a98dc7dc91d6156d07a62b0a2f3d8479d>).
The problem is in function wv_attach (in file wavpack.cc) - when calling WavpackOpenFileInputEx, the 3rd parameter should be nullptr if the .wvc file is not available.

History
