

Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #622

Drag'n'drop

February 13, 2016 10:11 - Njaal Bendixen

Status:	Rejected	Start date:	February 13, 2016
Priority:	Blocker	Due date:	
Assignee:	Njaal Bendixen	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Affects version:	3.7.1		
Description			
Drag'n'drop not working.			
Toshiba Satellite C660-13R Linux Mint 17.3 Xfce 64bit Audacious 3.71 Quodlibet 3.5.3 ObjectiveDAC USB external sound card			
I have been using Audacious before and drag'n'drop used to work. I use 2 sound cards. The internal one with QuodLibet and an external usb sound card with Audacious. I use Quodlibet to organise my music. First I find the music in Quodlibet, then I drag'n'drop the songs that I want to play from Quodlibet to Audacious. This used to work, but now I have upgraded to Linux Mint 17.3 Xfce 64bit. Now I can no longer drag'n'drop from Quodlibet to Audacious.			
Also I can not drag'n'drop from filebrowser to Audacious.			
I am a professional tango dj, and if drag'n'drop can not be made to work, then I will have to use another player. I am open to trying another distro.			
Appart from this I love Audacious, keep up the good work.			
Thank you,			
Njaal Bendixen

Works fine here.

#2 - February 13, 2016 14:41 - John Lindgren

Which interface are you using, by the way?
