Target version:	3.8			
Affects version:	3.8			

Description

1 - Launch Audacious with the Qt inferface
2 - Enable the scrobbler plugin
3 - Open the options for the scrobbler plugin

There's no button to allow access to my Last.fm account. I assumed that the plugin was broken, but the appropriate button appears on the GTK interface.

KDE Plasma 5.7.3
Qt 5.7.0
Audacious 3.8 beta 1
