Audacious - Feature #657
Add "View" menu to the Qt interface
August 06, 2016 20:46 - Ludovico Ferdinando

Status: Closed
Priority: Major
Assignee:
Category: plugins/qtui
Target version: 3.9
Affects version: 3.8

Start date: August 06, 2016
Due date:
% Done: 100%
Estimated time: 0.00 hour

Description
The "View" menu isn't available on the Qt interface, so I can't disable the bottom bar. Disabling it on the GTK interface doesn't remove it from the Qt interface.

KDE Plasma 5.7.3
Qt 5.7.0
Audacious 3.8 beta 1

History
#1 - August 06, 2016 20:48 - John Lindgren
- Tracker changed from Bug to Feature
- Subject changed from No "View" menu on the Qt interface to Add "View" menu to the Qt interface
- Assignee deleted (John Lindgren)

#2 - January 02, 2017 22:13 - Thomas Lange
- Status changed from New to Closed
- Target version set to 3.9
- % Done changed from 0 to 100

Meanwhile implemented by Eugene:
