Audacious - OLD, PLEASE USE GITHUB DISCUSSIONS/ISSUES - Bug #66

UI segfault on spc chiptunes with certain tags

January 31, 2012 22:42 - Will F.

Status: Closed Start date: January 31, 2012

Priority: Major Due date:

Assignee: % Done: 100%

Category: plugins/console Estimated time: 0.00 hour

Target version: 3.2.1

Description

Affects version:

There is a segfault with spc chiptunes when the tags have something specific, I'm not sure what. I have attached an example.

History

#2 - February 01, 2012 05:27 - John Lindgren

3.2

- Category set to plugins/console
- Status changed from New to Closed
- % Done changed from 0 to 100
- Target version set to 3.2.1
- Affects version added
- Affects version deleted ()

This was caused by invalid UTF-8 in the tag, which the console plugin should have sanitized. I've fixed this in the console plugin and also added a check in Audacious core to prevent similarly misbehaving plugins from crashing the program in future:
