

## Audacious - Bug #681

### audtool playback control

November 21, 2016 11:56 - Netslovdlyasnov Netslovdlyasnov

<b>Status:</b> Rejected	<b>Start date:</b> November 21, 2016
<b>Priority:</b> Major	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Affects version:</b> 3.9	
<b>Description</b> audtool playback-pause works like playback-playpause, but it should only pause. audtool playback-playing returns 0 in any case	

#### History

##### #1 - November 21, 2016 17:48 - John Lindgren

- Status changed from New to Rejected

Working as intended, not a bug.

##### #2 - November 21, 2016 18:25 - Netslovdlyasnov Netslovdlyasnov

How do I pause playback then?

If it is currently playing - it's ok, but if it's paused it starts playing.

I want to pause unconditionally.

##### #3 - November 22, 2016 02:32 - John Lindgren

```
#!/bin/sh
if ! audtool playback-paused ; then audtool playback-pause ; fi
```

The forum is the best place for "how to" questions.

##### #4 - November 22, 2016 09:01 - Netslovdlyasnov Netslovdlyasnov

Ok, that's one way of doing this, but

```
if audtool playback-playing; then audtool playback-pause; fi
```

doesn't work and it is a bug.

Also by logic there is a special command "playback-playpause" to toggle playback, and "playback-pause" must only pause, not starting playback again if paused.
