

## Audacious - Bug #689

### Error dialog at end of certain m4a/aac tracks

December 18, 2016 01:10 - Will F.

<b>Status:</b> Rejected	<b>Start date:</b> December 18, 2016
<b>Priority:</b> Major	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Affects version:</b> 3.8.1	

**Description**

I'm seeing an error dialog which ends in "Unknown playback error (check the console for detailed error inform" when certain m4a audio reaches the end. There is no playback error, only these dialogs keep popping up. I have attached an example of one such file.

#### History

##### #1 - December 18, 2016 01:12 - Will F.

And here is the terminal output when this happens.

```
ERROR ffaudio-core.cc:185 [aac]: <0x7fe52c0837c0> channel element 2.0 is not allocated
ERROR ffaudio-core.cc:214 [log_result]: avcodec_send_packet failed: Invalid data found when processing input
ERROR util.cc:295 [audgui_simple_message]: Error playing file:///home/ergo/sample.m4a:
Unknown playback error (check the console for detailed error information)
```

##### #2 - December 18, 2016 14:40 - John Lindgren

- Status changed from New to Rejected

This is not a bug, the file is malformed. Try re-encoding it, or if it was a digital download, ask for a refund.

```
WARNING ffaudio-core.cc:185 [aac]: <0x7f145c07c280> Multiple frames in a packet.
ERROR ffaudio-core.cc:185 [aac]: <0x7f145c07c280> Prediction is not allowed in AAC-LC.
ERROR ffaudio-core.cc:214 [log_result]: avcodec_receive_frame failed: Invalid data found when processing input
```
