<b>Description</b> The new track list has a very poor user-experience. There are many features it will be nice.  Some of them:  Allow choose the colums to show (like the old 2.x series)  Allow columns to be draggable to change their order <a href="http://redmine.audacious-media-player.org/issues/10">http://redmine.audacious-media-player.org/issues/10</a>  Make column titles clickable allowing to change the sort order <a href="http://redmine.audacious-media-player.org/issues/8">http://redmine.audacious-media-player.org/issues/8</a>  Allow playlist columns to be resized <a href="http://redmine.audacious-media-player.org/issues/19">http://redmine.audacious-media-player.org/issues/19</a>  Thank you for your efforts and for making one of the best audio player ever! ;)

You can already choose which columns are shown. All the other improvements have been requested already (as you noted), so there is no need to open another report.
