Audacious - Feature #745

Ignore file name from embedded cuesheet

September 23, 2017 00:20 - Alex the Root

Status:	Rejected		**Start date:**	September 23, 2017

Target version:				
Affects version:	3.9.1			

Description

It seems, that Audacious checks file name from embedded cuesheet. When it doesn't match name of played file cue isn't loaded. My proposal is to just ignore file name inside embedded cue and just split tracks.

History

We don't have any support for embedded cuesheets currently. It would be quite a bit of work to implement, more than I have time for certainly.
