

Audacious - Bug #771

Enter in numpad doesn't work in QT Version to start play

Affects version:	3.9		

Description

In order to reproduce:

- audacious --qt
- the current playlist is fine, but you can also change to another playlist
- hit enter (it works)
- hit enter in numpad (tested that enter does work in a text editor). In my case I also have CapsLock set as an enter as well. Like so:

```
xmodmap -e "remove Lock = Caps_Lock"  
xmodmap -e "keycode 66 = KP_Enter NoSymbol KP_Enter"
```

These keys do not work, even though obviously they work fine as an enter.
